

Call to Action

At our local meetings, on the jobsites, and everywhere our members are found, I have urged all carpenters to become more active by participating in union and political activity early and often. Let's start the year off on a positive note and get our first picket duty done by supporting the following call to action:

Calling all members!

We need your help. Please come out to City Planning at 120 Broadway, New York, NY Wednesday, January 30 at 9am to help us pass affordable development so that they can be built with Union Labor. It's crucial that we come out and support NEW developers who want to build with area standard wages and benefits. This event counts for picket duty.

Levi Messinetti, President, Local 157
